The Labour Relations Act of 1995 established a new framework for industrial relations in South Africa, which aimed to promote social justice, economic development, and the protection of workers' rights. This act introduced new provisions to address issues such as workplace violence and the right to strike, as well as measures to protect the rights of women and vulnerable workers. In addition, the act sought to promote the development of a more inclusive and democratic society by facilitating the participation of all workers in the development process. The act also sought to enhance the role of trade unions in protecting workers' rights and promoting social justice. The act's provisions were intended to promote a more participatory and democratic workplace culture, where workers could engage in collective bargaining and participate in the decision-making process. The act also sought to promote the development of a more inclusive and democratic society by facilitating the participation of all workers in the development process. The act's provisions were intended to promote a more participatory and democratic workplace culture, where workers could engage in collective bargaining and participate in the decision-making process. The act also sought to promote the development of a more inclusive and democratic society by facilitating the participation of all workers in the development process. The act's provisions were intended to promote a more participatory and democratic workplace culture, where workers could engage in collective bargaining and participate in the decision-making process.
